PROBLEMS OF INFORMATION TRANSMISSION

Volume 28, Numbers 1-4, 1992

(A translation of *Problemy Peredachi Informatsii*)

Engl./Russ.

Volume 28, Number 1, January-March, 1992

INFORMATION THEORY AND CODING THEORY

Mathematical Analysis of Algebraic Sequential Coding - K. Sh. Zigangirov 1 3

Bounds for Codes with Separately Localized Errors - L. A. Bassalygo, S. I. Gel'fand, and M. S. Pinsker 11 14

Soft-Decision Maximum-Likelihood Decoding of Partial-Unit-Memory Codes - V. V. Zyablov and V. R. Sidorenko 18 22

Characteristics of Systems Based on CPFSK Signals and Convolutional Codes - V. V. Zyablov, N. A. Ugrelidze, and S. A. Shavgulidze 23 28

New Lower Bounds for Minimum Distance of Linear Quasi-Cyclic and Almost Linear Cyclic Codes - V. V. Chepyzhov 33 39

SIGNAL PROCESSING METHODS

Nonparametric Estimation of Smooth Probability Densities in L_2 - G. K. Golubev 44 52

Approximations in Sequential Rules for Discrimination of Complex Hypotheses and Their Precision in the Problem of Signal Detection from Postdetector Data - A. G. Tartakovskii and I. A. Ivanova 55 63

Convergence of Stochastic-Approximation Procedures in the Case of a Regression Equation with Several Roots - V. A. Lazarev 66 75

COMMUNICATION NETWORK THEORY

Blocked RMA Stack Algorithm for a Network with a Finite Number of Stations - B. S. Tsybakov and V. B. Faingol'd 79 89

An Access Algorithm for a Communication Channel - B. S. Tsybakov and S. P. Fedortsov 86 97

Volume 28, Number 2, April-June, 1992

SIGNAL PROCESSING METHODS

Asymptotic Minimax Estimation of Regression in the Additive Model - G. K. Golubev 101 3

Estimation of the Minimum Point of an Unknown Function Observed in the Presence of Dependent Noise - O. N. Granichin 112 16

Comparison of Some Sequential Rules for Detecting Changes in Distributions - A. G. Tartakovskii and I. A. Ivanova 117 21

Informativity in the Category of Linear Measurement Systems - P. V. Golubtsov 125 30

CODING THEORY

New Packings on a Finite-Dimensional Euclidean Sphere - V. A. Zinov'ev and Th. Ericson 141 47

Partitioning of the Vector Space into Orbits by the Action of Automorphism Groups of Some Codes - Yu. L. Sagalovich 147 54

Fourier Transform Evaluation in Fields of Characteristic 2 - T. G. Zakharova 154 62

COMMUNICATION NETWORK THEORY

The Throughput of the Stack Algorithm in a Channel with N-Conflicts - B. S. Tsybakov and A. Yu. Privalov 168 78

	Engl.	Russ.
Lower Bounds on the Probability of Connectedness in Classes of Random Graphs Generated by 2-Connected Graphs with a Given Base Spectrum - V. P. Polesskii	175	86
Integral Method for Calculating Closed Queueing Networks - A. I. Gerasimov	184	96
BRIEF COMMUNICATIONS		
Two Extremal Problems for Oriented Lattices - S. L. Bezrukov	196	109
Volume 28, Number 3, July-September, 1992		
COMMUNICATION-NETWORK THEORY AND LARGE SYSTEMS		
Ergodicity of Stochastic Processes Describing the Operation of Open Queueing Networks - A. N. Rybko and A. L. Stolyar	199	3
Multiple Access the Collision Resolution by Station Indices - B. S. Tsybakov, S. P. Fedortsov, and N. A. Ryleeva	221	27
A Class of Mixed Markov Processes and Their Application in Teletraffic Theory - M. Ya. Postan	232	40
SIGNAL PROCESSING METHODS		
Asymptotically Optimal Decision among Several Hypotheses for Nonhomogeneous Gaussian Processes - N. V. Verdenskaya	244	54
Exact Asymptotic Expression for the Density of Multiple Stochastic Integrals - E. I. Ostrovskii	250	60
Change-Point Detection in a Linear Stochastic System from Noisy Observations - S. É. Vorobeichikov and V. V. Konev	258	68
Sequential Experimental Design for Nonparametric Estimation of Smooth Regression Functions - G. K. Golubev	265	76
INFORMATION THEORY AND CODING THEORY		
Decoding of Reed-Muller Codes with a Large Number of Errors - V. M. Sidel'nikov and A. S. Pershakov	269	80
Switching Discrete Sources and Its Universal Encoding - Yu. M. Shtar'kov	282	95
Erratum	296	
Volume 28, Number 4, October-December, 1992		
INFORMATION THEORY AND CODING THEORY		
Entropy of Some Binary Sources - A. G. D'yachkov and V. M. Sidel'nikov	297	3
A Trellis Coding Scheme Based on Signal Alphabet Splitting - K. Sh. Zigangirov and R. Johanesson	308	14
Capacity of a Communication Channel with Inner Random Coding - V. I. Korzhik and V. A. Yakovlev	317	24
SIGNAL PROCESSING METHODS		
Sequential Parameter Estimation with Guaranteed Mean-Square Accuracy for Unstable Linear Stochastic Systems - V. V. Konev and S. M. Pergamenshchikov	327	35
Efficiency of the Generalized Neyman-Pearson Test for Detecting Changes in a Multichannel System - A. G. Tartakovskii	341	49
Interpolation of Discrete Periodic Data - M. G. Ber and V. N. Malozemov	351	60

	Engl.	Russ.
COMMUNICATION-NETWORK THEORY AND LARGE SYSTEMS		
Lower Bound on Delay in an RMA System with N-Conflicts and Errors - B. S. Tsybakov and A. Yu. Privalov	360	69
Proof of the Poisson Hypothesis for Circuit-Switching Loss Networks - M. Yu. Kradinov	375	86
A Universal Search Scheme for a Single Significant Factor in a Disjunctive Model - B. Ya. Ryabko	384	96
BRIEF COMMUNICATIONS		
Binary Constant-Weight Codes Correcting Localized Errors - L. A. Bassalygo and M. S. Pinsker	390	103
On Varshamov-Tenengolts Codes and a Conjecture of L. A. Bassalygo - D. N. Gevorkian and G. A. Kabatianskii	393	106
LETTER TO THE EDITOR (ERRATUM)		
G. K. Golubev	395
